Appearance/ Odour	Paste/ Characteristic
pH	7
Density	N.A
Flash point	>60°C
Transport N° ONU	N.A
Storage	Keep containers closed when not in use.
Packaging	500g

Directions for use

Compatibility / supports	glass / ceramics .
Méthodes	- Clean the surface. - Wet the surface. - Apply the paste evenly on the surface to be treated with a damp sponge or buffing machine (Low to medium speed). - Polish the glass circularly until the complete elimination of the product. Avoid long steady applications in small areas to prevent the heating of the glass. - Rinse the treated surface with fresh water before drying it with paper towels.

Precautions for use

- Before use: Always perform a test on a small surface.
